

Merlot 2008

Area of production	Friuli Venezia Giulia, Doc Collio
Soil composition	Sandstone marl
Production	6800 Kg/Ha
Density system	4200-5500 plants/hectare (<i>Guyot</i>)
Bunch	The bunch is pyramidal and wingy. The spheric berries have thick blue-black coloured skin.
Vinification	Manual harvest, destemmed, then the vinification proceeds with the soft press and the maceration on the skins (10-12 days); oak-wood barrels ageing.
Wine	Intense ruby-red colour; broad and elegant aromas, crisp with a light scent of Bulgarian roses. Full and decisive in the palate, fresh and dry with a small red fruit finish.
Alcohol	13,00% vol.
Acidity	4,50 g/l
Residual sugar	2,60 g/l
